

April 7, 2012

We appreciate the working style and dedication exhibited by Metro Infrasy's for our Dhule Palasner Tollway Ltd. Project. They possess well qualified and experienced man power. Having worked with numerous system integrators so far on various projects and the inevitable comparisons, Metro Infrasy's shall undoubtedly be our preferred choice as system integrators for our upcoming Projects.

We take this opportunity to thank Mr. Sachin Bhatia who has personally taken care of the Project. We also thank his entire team who has fulfilled all the commitments and demonstrated unending support throughout the duration of the Project. The core of every Toll Management Project is the software which was carefully designed as per the Company's requirement. Another notable point about their TMS is the accuracy levels of the AVCC. All the components and peripherals which were used are genuine and standard.

The Project is JV between Sadbhav Engineering and Hindustan Construction Company and they have made sure to satisfy both the Companies aptly. The Project Completion was achieved before the Scheduled Completion Date.

We would definitely consider them for all our forthcoming Projects.

Vasistha Patel
