**DIGITAL PROJECT MANAGEMENT**

Elevate your ITS and highway project management with our futuristic cloud-based solutions.

**CLOUD-BASED TMS SOLUTIONS**

Streamline toll and traffic management with our advanced cloud-based solutions.

**CLOUD-BASED ATMS SOLUTIONS**

Effortlessly maximize traffic efficiency with our powerful and seamless cloud-based solutions.

**SMART CITIES & INFRASTRUCTURE**

Optimize city and infrastructure operations with our cutting-edge cloud-based solutions.

**REAL-TIME ASSET MANAGEMENT**

Effectively organize and secure your assets with our smart cloud-based solutions.

# DIGITAL PROJECT MANAGEMENT

Elevate your ITS and highway project management with our futuristic cloud-based solutions that optimize efficiency, enhance collaboration, and future-proof your infrastructure.

CAPEX savings on construction, design and delivery

Cut review and approval time by automating workflows

Efficient and better-informed business decisions

Track progress and expenses in real-time

Lower risk and cost contingency

Ready to elevate your project management skills? Try our futuristic cloud-based solution today and unlock new heights of efficiency and collaboration.

# CLOUD-BASED TMS SOLUTIONS

Streamline toll and traffic management with our advanced cloud-based TMS solutions, utilizing real-time data and analytics for improved accuracy and performance.

Seamless migration to cloud-based toll collection system from legacy server-based systems

Future-proof your tolling infrastructure with our cloud-based TMS that seamlessly transitions to MLFF and GNSS-based tolling systems

Real-time data and analytics for improved accuracy and performance

Unlock the full potential of your toll and traffic management with our cloud-based TMS solutions utilizing real-time data and analytics. Try it now.

# CLOUD-BASED ATMS SOLUTIONS

Effortlessly maximize traffic efficiency with our powerful cloud-based ATMS solutions, utilizing real-time data to optimize traffic flow and enhance vehicular safety.

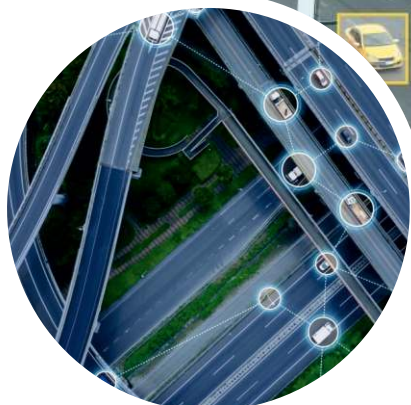

Optimize traffic flow with real-time data analysis

Enhance safety with advanced traffic management features

Easy integration with current traffic management systems

Automated incident response system for improved safety

Visualize real-time traffic data for informed decision-making

Effortlessly maximize traffic efficiency by contacting us to learn more about our cloud-based ATMS solutions for streamlining your traffic management.

# SMART CITIES & INFRASTRUCTURE

Optimize city and infrastructure operations with our cutting-edge cloud-based solutions, empowering data-driven decision-making and maximizing efficiency.

Real-time monitoring of city and infrastructure operations

Integrated smart sensor network for accurate data collection

User-friendly dashboards and customizable reporting

Scalable and adaptable to accommodate future growth

Predictive analytics for proactive maintenance and repairs

Transform your city's infrastructure with our cutting-edge cloud-based solutions, and optimize operations with data-driven decision-making. Contact us now.

# REAL-TIME ASSET MANAGEMENT

Effectively organize and secure assets with our smart cloud-based solutions that provide real-time tracking and management for enhanced productivity and reduced risks.

Streamlined asset maintenance and scheduling

Intuitive dashboard for easy monitoring and analysis

Robust security features for asset protection

Customizable reporting for informed decisions

Audit trail tracks assets for compliance

Contact us today to learn how our smart cloud-based solutions can help you effectively organize and secure your ITS and infra assets in real-time.

40+ Mn Vehicles  
Processed Each Year

100% Auditability  
Zero Pilferage

\$600 Mn Collected  
in Toll Every Year

800+ Toll Lanes  
Created & Serviced
